

BUILDING SCIENCE NIGHT CLASS

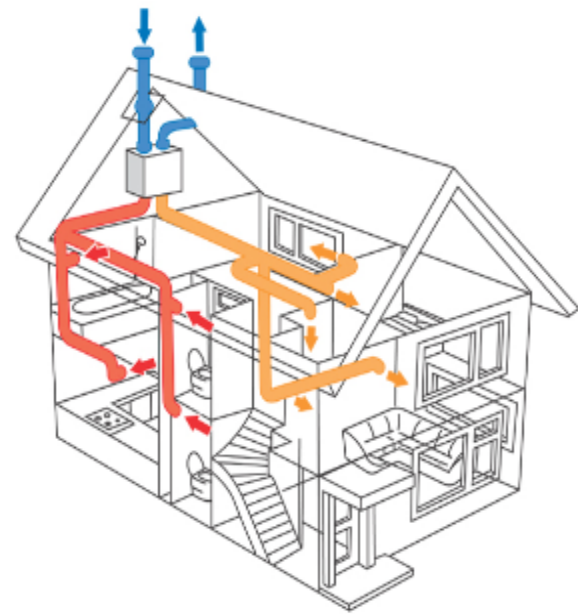

@ CABRILLO COLLEGE

WEDNESDAYS 6:00-9:05 PM

Building Science Is Changing Building Codes and Our Industry. Learn About:

- HERS Tests
- Blower Door Testing
- Duct Blasting
- Whole House Mechanical Ventilation
- Infrared Imaging
- Air Sealing Techniques
- Healthy, Durable Construction

BUILDING SCIENCE is the study of how air, heat and moisture affect a building's "performance". It has become the driving force informing building code and product design changes, and has laid the groundwork for the present and future direction of the building industry.

CEM 162BS is designed for the working professional, homeowner or anyone interested in creating healthier, more comfortable, more durable, and more energy efficient homes. The course **Still Has Openings!** Enroll online at Cabrillo.edu/services/ar/ or **Just Show Up!** and we'll help you enroll

Watsonville Campus, 318 Union Street, Watsonville, CA 95076 room D101
